PROFILE

Data Analyst with over two years of experience in BI and commercial analytics. Currently a CRM Data Analyst at Ryanair, working with complex SQL and Spark SQL queries in Databricks, advanced Power BI and reporting for senior leadership. I combine business understanding and a strong grasp of data grain with data engineering training. AWS Certified Data Engineer – Associate, with a career focus on Analytics Engineering.

EXPERIENCE

Ryanair **Mar 2025 – Present**
CRM Data Analyst | Insights Madrid, Spain

- Develop complex **SQL and Spark SQL queries in Databricks** to analyse customer, booking and CRM campaign data, accounting for data grain.
- Build **Power BI dashboards** and partner with marketing, commercial and pricing teams to define KPIs and reporting requirements.
- Own daily revenue and EU261 passenger claims reporting for the **CMO**, covering commercial performance and compensation exposure.
- Design and evaluate **A/B tests** for CRM campaigns and translate findings into business recommendations.

Minsait (Indra Group) **Feb 2025 – Mar 2025**
Consultant Analyst Madrid, Spain

- Built an internal commercial proposal generation tool and designed semantic data models for client systems.

Panoram Hotel Management **Sep 2024 – Feb 2025**
Data & BI Analyst (Internship) Madrid, Spain

- Supported the Commercial Strategy & BI Director through executive **Power BI dashboards** and reporting for senior leadership and HR.
- Developed occupancy and revenue forecasting models using **SARIMAX and XGBoost** to support commercial planning.
- Contributed to data standardisation and quality initiatives to improve reporting reliability.

Mediapro **Feb 2022 – Aug 2022**
Business Administration Intern | Finance & Controlling Madrid, Spain

- Supported invoicing, cost tracking and month-end processes in SAP; prepared Excel reports and reconciliations.
